ANPG DIGITAL JOURNEY

ARY DIAS
SOLUTIONS ARCHITECT

September 2022 | Luzern
AGENDA

1. Introduction, Context & Vision
2. Phase 1: Discovery
3. Phase 2A: Quick Wins & POV
4. Phase 2B: Executing
5. Phase 3: Looking Ahead
Key Areas:

Lead the IT strategy and Digital Services, including sourcing and the development of overall capabilities to deliver value.

Define policies, standards and propose architectures and best practices in the implementation of IT solutions.

Advise top management in all areas related to IT investments.

Ensure all the IT investments are delivering value.
INTRODUCTION

Ary Bartolomeu Sicato de Almeida Dias

SOLUTIONS ARCHITECT
Agência Nacional de Petróleo, Gás e Biocombustíveis

Key Areas:

Application Architecture Management
Technology Landscape Orchestration
Service Creation to achieve Business Objectives
Deliver the Digital Transformation.

Manage the change towards a Digital Culture while increasing the overall organizations Digital Literacy.
AGENDA

1. Context

2. Phase 1: Discovery

3. Phase 2A: Quick Wins & POV

4. Phase 2B: Executing

5. Phase 3: Looking Ahead
To be an international reference, promoting a business environment of excellence and become the number 1 destination for investors.
**CONTEXT - THE JOURNEY**

2019
- ANPG Created by Presidential Decree
- Autonomy from Sonangol
- Definition of a Hybrid/Cloud Strategy
- Pandemic
- ANPG as a Cloud First Company
- Manage minimal legacy infrastructure
- Planning the move to DELFI

2020
- EKUMBI – Digital Transformation Programme
- Delivering DELFI on MS Azure
- Digital Literacy

2021
- Create a Digital Culture
- Focus on delivering ANPG’s Datacenter

2022
- Consolidate Hybrid Cloud Strategy
- AI and IOT Predictive Analysis and beyond...

2023
CONTEXT – BIMODAL IT

Mode 1
- Keep the Lights Up!
- Predictable Processes, Procedures and Operations

Mode 2
- Listen to the Business!
- Explore, Innovate, experiment to solve new problems

Build Smart and Run Simple!
CONTEXT & VISION – DX PROJECT PLAN

Phase 1: Discovering the Context
- Know Your Current Situation
  - Technology Assessment
  - Digital Maturity Assessment
  - Transition Assessment

Phase 2: Discuss & Define Future Digital Strategy
2A
- Select the key Business Value Levers
2B
- Set the Digital Vision & Target Operating Model
- Prioritize Digital Opportunities & Dependencies

Quick Win Delivery & Value Measurement
- Business Value Levers
- Digital Vision & Strategy
- Solution Roadmap

Phase 3: Start the Journey
- Current State (per priority)
- Business Alignment to Target State (Gap Analysis)
- Prioritized Projects & Opportunities Portfolio

To be proposed at conclusion of Phase 2
- Project Plans
- Implementation Plan
- Governance

Q3 2020 delivery
Q1 2021 delivery
AGENDA

1. Introduction, Context & Vision
2. Phase 1: Discovery
3. Phase 2A: Quick Wins & POV
4. Phase 2B: Executing
5. Phase 3: Looking Ahead
PHASE 1 - DISCOVERY – FOCAL POINTS

**Landscape Reviews**
- **Purpose**
  - Understand current environment
  - E&P domains (Exp, Prod, IM)
    - Focus on Business Architecture
    - Key processes, tools & data
  - IT domain
    - Focus on Technical Architecture
    - Implementation & Distribution

**Maturity Assessment**
- **Purpose**
  - Assess organizational capability
  - Key focus areas
    - Standards
    - Governance
    - Knowledge Management
    - Quality Control
    - Change Management

**Transition Assessment**
- **Purpose**
  - Assess technical capability and technical requirements
  - Key focus areas:
    - Network
    - Security
    - Data volumes
PHASE 1 - MATURITY ASSESSMENT – CURRENT STATE

- **Processes**
  - Process model not yet established
  - Inconsistent or unmanaged execution

- **Technology**
  - No definition of “ANPG standard”
  - Instabilities created by dependence on parent organization

- **Data**
  - No true data governance
  - Ownership not defined
  - Limited quality control
PHASE 1 - TRANSITION - FOCUS AREAS

- **Infrastructure**
  - Dependency on parent infrastructure
  - Starting to re-deploy ANPG systems into new Azure environment

- **Network & Security**
  - Dependency on parent AD environment
  - Limited & inadequate web access

- **Data & Storage**
  - Dependency on parent storage environment
  - Performance issues drive local storage on workstations
  - Significant issues with connectivity between primary & secondary sites
## PHASE 1 – SUMMARY & CONCLUSIONS

<table>
<thead>
<tr>
<th>Landscape</th>
<th>Problems</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Business Landscape</strong></td>
<td>• Regulatory activities not yet part of process landscape</td>
</tr>
<tr>
<td></td>
<td>• Domain processes are disconnected, no end-to-end sequence</td>
</tr>
<tr>
<td></td>
<td>• Data processes highlighted as an immediate concern (manual, inefficient)</td>
</tr>
<tr>
<td><strong>Application Landscape</strong></td>
<td>• Applications are defined in Domains, not integrated across Domains</td>
</tr>
<tr>
<td></td>
<td>• Lack of integration between core tools limits data integration &amp; impedes collaboration</td>
</tr>
<tr>
<td></td>
<td>• Multi-party application support with limited visibility of status &amp; progress</td>
</tr>
<tr>
<td><strong>Information Landscape</strong></td>
<td>• Large amount of data being held on user workstations with little or no management</td>
</tr>
<tr>
<td></td>
<td>• Lack of an integrated data platform makes data access difficult for users</td>
</tr>
<tr>
<td></td>
<td>• Data governance, quality controls &amp; lifecycle ownership not yet implemented</td>
</tr>
<tr>
<td><strong>Technical Landscape</strong></td>
<td>• Current infrastructure still dependent on parent organization</td>
</tr>
<tr>
<td></td>
<td>• Support, maintenance, monitoring &amp; information issues (aging, non-ownership, etc.)</td>
</tr>
<tr>
<td></td>
<td>• General concerns for performance and ability to adopt new cloud technologies</td>
</tr>
</tbody>
</table>
AGENDA

1. Introduction, Context & Vision
2. Phase 1: Discovery
3. Phase 2A: Quick Wins & POV
4. Phase 2B: Executing
5. Phase 3: Looking Ahead
Digital Transformation Program
Establish upstream digital journey

ANPG
Vision & Identity

Business Projects
Focused & customized to each business

Common Projects
Strong foundation across all businesses

Other ANPG groups

</tbody>
</table>

**PROJECT LIST AND SELECTION**
PHASE 2A - FOUNDATION PROJECTS

DATA
- Integrated Data Platform
- Data Governance
- Data Integrity

TECHNOLOGY INTEGRATION
- Fit-for-Purpose Applications
- Fit-for-Purpose Environment
- Digital Champions

COLLABORATION & COMMUNICATION
- Culture of Collaboration
- Publishing for open access
- Idea generation & demand mgmt
PHASE 2A – DOMAIN PROJECTS

ENTERPRISE SEARCH
- Enable search through all data for relevant information
- Identified by both Exploration & Production
- Improve users’ ability to find the data & information they need
- Use technologies built into the new data platform

AUTOMATED DATA QUALITY CONTROL
- Use new technology to reduce/eliminate manual intervention
- Accelerate data receipt & validation and data loading processes
- Avoid accidents and identify data issues (linked with data integrity project)
- Use technologies built into the new data platform

AGILE IT
- Use architecture management to improve IT Service
- Understand the impact of change to maintain end-to-end integration
- Accelerate technology identification, implementation & full adoption
- Enable rapid response to changing business requirements
AGENDA

1. Introduction, Context & Vision
2. Phase 1: Discovery
3. Phase 2A: Quick Wins & POV
4. Phase 2B: Executing
5. Phase 3: Looking Ahead
PHASE 2B – AGILE & ACCELERATED DIGITAL TRANSFORMATION

Q3 2020 delivery – Q1 / Q3 2021 delivery

**Phase 1: Discovering Context**
- Know Your Current situation
  - Technology Assessment
  - Digital Maturity Assessment
  - Transition Assessment

**Phase 2: Discuss & Define Future Digital Strategy**
- 2A: Select the key Business Value Levers
- 2B: Set the Digital Vision & Target Operating Model
- Prioritize Digital Opportunities & Dependencies

**Quick Win Delivery & Value Measurement**
- Business Value Levers
- Digital Vision & Strategy
- Solution Roadmap

DELFI POV
DX Phase 2B

DELFI Transition Phase 1
Activity Updates & Forward Planning

1. Major items
   a) Champions – Names, Vacations, Travel – Availability
   b) Connectivity – Permissions/Firewall/Network
   c) Evaluation Checklist – discussed & info captured
   d) POV Workflows - discussed & info captured
   e) Data Release to DELFI
   f) SSO (Single-Sign On)
   g) Federation - ANPG domain w DELFI
   h) Express Route
“As-Is”

- Total Volume
- Priority 1 Data
- Breakdown by Data Type
- Breakdown by Application
- Offline Data
- Backup & Business Continuity
- Governance

Migration POV

- High Level Strategy
  - Structure
  - Naming conventions
  - Centralization
  - Deduplication
  - Rationalization / cleanup activities
  - Prioritization
  - Value Proof Points

Phase 1 Migration

- Transfer for P1 Data
- Lessons Learned
- Process improvement
- Check Value Proof Points

Data Synch

- Setting up Sync for results from DELFI to legacy environment
- Check Value Proof Points
PHASE 2B – Integrated Data Platform - Timelines
